Model year 2016

Maintenance

Warranty voucher

Present this voucher to an authorized dealer if warranty service is required.

The warranty period begins on the date the vehicle is delivered to either the original purchaser or the original lessee; or if the vehicle is first placed in service as a "demonstrator" or "company" car, on the date such vehicle is first placed in service.

## Service information

### Dealer service

There are approximately 645 authorized Volkswagen dealers in the United States. They have Volkswagen trained technicians, proper workshop equipment and parts to give you expert service.

Volkswagen dealers are committed to quality service.

- Your authorized Volkswagen dealer offers many services for your convenience, such as extended service hours, early bird service, body repairs, to name just a few. Ask about them.
- Arrange your service with your dealer when it is convenient for you.
- Ask your Service consultant about the service you need and discuss the cost involved.
- Leave word where you can be reached during the day and when you would like to pick your car up.
- Keep all receipts of maintenance and repairs performed. Your service record is important when making use of your warranty.
- Maintenance services performed by your authorized dealer at the intervals specified, will also be documented in this booklet.
- Automobile technology changes continuously. Your authorized Volkswagen dealer always has the most current Service and Maintenance information for your Volkswagen model. It is possible that this information may differ from the check points listed in this booklet. Your Volkswagen Service consultant can answer any questions you may have.

### Do-it-yourself service

Your Owner's Manual contains many helpful hints on what you can service yourself.

- You can check tires for wear or damage and correct tire pressure, including the spare.
- You can check the windshield washer container.
- You can check your car's interior and exterior lighting system for correct functioning.

- You can check the engine oil level with every fuel filling.
- You can perform these simple checks once a week. They save time, trouble and expense later.

**Your technician will not check the above mentioned items in each case during regular service and maintenance visits.**

### Emission control maintenance

- 1 A clean environment is of concern to all of us. Volkswagen has built into your vehicle an efficient emission control system, using genuine Volkswagen parts, in conformance with the Federal Clean Air Act in the United States. To help keep our air clean, you can do your part by having your vehicle's maintenance services and all repairs performed in a timely manner.
- 2 **Maintenance, repair or replacement of emission control components may be performed by any qualified automotive service and repair establishment or individual without affecting the Emission Control System Warranty, provided that such repairs are performed to manufacturer's specifications, and that replacement parts are at least equivalent to genuine Volkswagen parts in emission performance and durability. Warranty repairs and replacements, however, must be performed by an authorized Volkswagen dealer.**
- 3 If other than genuine Volkswagen replacement parts are used, the owner should make sure that such parts are warranted by their manufacturer and that they are at least equivalent to genuine Volkswagen replacement parts in emission performance and durability.

### Why maintenance?

With proper maintenance and care, your Volkswagen model will continue to provide you with a dependable and safe driving experience. This booklet contains Volkswagen's prescribed service intervals as well as other important information you need to know to care for your Volkswagen model properly. **Adherence to the prescribed maintenance services and intervals is necessary to protect your investment and help ensure optimum performance. Failure to follow recommended maintenance services and intervals may** ►

**result in a denial of your warranty coverage.**

Please see the warranty section of this booklet for further details.

Your vehicle is designed to keep maintenance requirements to a minimum.

Today's vehicles are precision engineered machines. They are designed with people's safety in mind, and are equipped with emission control systems to help keep our air clean. However, a certain amount of regular maintenance is still necessary to help assure optimum performance and reliability. A well-maintained vehicle conserves fuel, protects against unwanted emissions, and may prevent a major repair expense at a later date.

Follow the service intervals schedule and itemized list of services for each, and make fluid level and tire pressure checks between the scheduled intervals as recommended in your vehicle Owner's Manual.

The service intervals schedule is based on vehicles operating under normal conditions. In the case of severe conditions, such as extremely low temperatures and/or excessive dust, it is necessary for some services to be performed between the scheduled intervals. This applies particularly to engine oil changes and the cleaning or replacing of the air cleaner filter element.

**Authorized Volkswagen dealers are ready to serve you and are committed to quality service.** ◀

Service schedule

Delivery inspection

- Your authorized Volkswagen dealer will fill out the necessary information and stamp this booklet to confirm that the necessary services have been performed.
- Automobile technology changes continuously. Your authorized Volkswagen dealer always has the most current Service and Maintenance information for your Volkswagen model. It is possible that this information may differ from the check points listed in this booklet. Your Volkswagen Service consultant can answer any questions you may have.
- If you are not sure when to bring your car in for service, ask your authorized Volkswagen Service consultant.

Delivery Inspection

Before your vehicle is delivered to you, it is inspected according to factory guidelines. The Delivery Inspection was performed on:

Points to Review

Points to review during every service.

- Battery: Check (and second battery if applicable)
- Coolant level and frost protection: Check
- Engine and engine compartment components: Check (from above) for leaks and damage
- Engine and engine compartment components: Check (from below) for leaks and damage, check transmission, final drive, and drive shaft boots
- Headlights: Check adjustment
- Lighting: Front and rear lights, luggage compartment lighting, turn signals, and hazard warning lights: Check
- Visual inspection of windshield. Note damage if necessary

Service at 10,000 miles

Service at 10,000 miles or one year from vehicle in-service date, whichever occurs first.

- AdBlue® fluid: Check and add if necessary (if applicable)
- Brake pads: Check thickness and brake disc condition. Look for contact pattern and corrosion of brake discs (front and rear)
- Engine: Change oil and replace oil filter
- Hybrid components: Perform a visual inspection of high-voltage components and the lines in the engine compartment and the rear of the vehicle for damage
- Service interval display: Reset
- Windshield washer, headlight cleaning system, and wiper blades: Check for damage and function. Check fluid level and add if necessary

Additional service

Time-dependent maintenance items

- Every 2 years:
- Convertible roof: Check latch (if applicable)
  - Dust and pollen filter: Replace (or every 40,000 miles, whichever occurs first)
  - Tire filler bottle in the tire mobility set: Check (observe expiration date)

At the 3 year mark, then every 2 years regardless of miles driven:

- Brake fluid and clutch unit: Replace fluid

Every 3 years:

- Haldex clutch: Change oil (Tiguan 2.0T, CC 3.6L, and Golf R 4MOTION® only)

Every 4 years regardless of miles driven:

- AdBlue® fluid: Check fluid if the mileage is under 10,000 miles (if applicable)
- Spark plugs: Replace (2.0L MPI, 1.4L gasoline, and Jetta Hybrid engines only)
- Tire filler bottle in the tire mobility set: Replace (observe expiration date)

Every 6 years regardless of miles driven:

- Air filter element and snow screen: Replace element and clean screen and housing (if mileage is under 60,000 miles) (if applicable)
- Spark plugs: Replace (All engines except 2.0L MPI, 1.4L gasoline, Jetta Hybrid, and TDI)

Brake fluid replacement

Replacement record

- The brake fluid must be replaced every 3 years regardless of mileage, and every 2 years thereafter regardless of mileage driven.

The "National Traffic & Motor Vehicle Safety Act of 1966" requires manufacturers to be in a position to contact vehicle owners if a correction of a safety-related defect or an noncompliance with an applicable Federal motor vehicle safety standard becomes necessary.

Please complete one of the attached postcards if you change your address or purchase a used Volkswagen.

You need not use this card if you purchased your car through an authorized Volkswagen dealer.

Quote the complete Vehicle Identification Number (VIN) of your Volkswagen. Do not use an abbreviated number.

Locations of the Vehicle Identification Number (VIN) are illustrated and explained in the Owner's Manual.

Additional cards can be obtained from any authorized Volkswagen dealer.
